

Urban Planning Program

at the École des Ingénieurs
de la Ville de Paris

OUR PHILOSOPHY

An **interdisciplinary approach** to urban transitions, combining diverse teaching methods with a strong emphasis on active pedagogies.

Classes are delivered by both **academics and urban professionals**, offering training embedded in Paris and its policies.

STUDY AT THE HEART OF PARIS

The programme includes **lectures, site visits, case studies** and **workshops** with students from partner institutions.

EIVP is affiliated with the **City of Paris** and is a founding member of **Gustave Eiffel University**.

Located in the vibrant **Belleville** neighbourhood, EIVP delivers the only **degree in Urban Engineering** in France.

30
ECTS

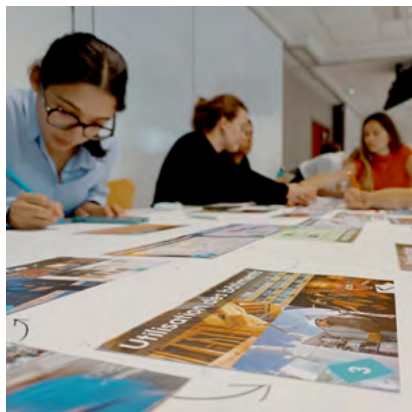

100% taught in
English

Fall term
(Sept-Dec)

Diploma
awarded
